SUMMARY

As an enthusiastic front-end developer, I possess foundational skills in HTML, CSS and JavaScript and am eager to contribute to innovative web development projects.

WORK EXPERIENCE

WEB DEVELOPER INTERN

ACE INFOWAY PVT. LTD.

DEC-2023 - MAY-2024

- During my Full Stack Web Development Internship, I underwent an extensive learning phase where I gained advanced knowledge in React JS and Nest JS.
- Using these new skills, I Completed a project focused on developing a user-friendly social media management tool.

PROJECTS

Social Canvas

- As a front-end developer in the project, my role was to create a user-friendly interface.
- Developed a user-friendly social media management tool enabling users to log in, schedule posts, and manage multiple accounts efficiently. Integrated performance insights and task automation for time- saving benefits.

Rolex Engineering

- As a full-stack developer in the project, my role was to design and develop a user-friendly interface with data management and functionality in the backend part of the website.
- A user-friendly e-commerce Website For a Company Called Rolex Engineering in Rajkot, enabling users to log in, Check Products of Rolex Engineering, Buy Or Add To a Cart and send inquiries for specific requirements.
